Dear Hiring Manager,

My name is Steffen Tourbier, and I am a Software Engineer who has recently graduated from my studies. My educational background is comprised of a solid IT foundation, including a Master's degree in Computer Vision & Data Science, and 2 years of professional experience as a software engineer at Beeholder BV in the Netherlands. Given this background and my willingness to pick up new technology, I am confident in my ability to make a valuable contribution to any development team.

As outlined in my resume, my educational background includes a B.Sc. degree in Biology, a B.Sc. degree in ICT, and an M.Sc. degree in Computer Vision & Data Science. My resume also provides a detailed summary of my work and project experience, which I believe would be an asset to your organization.

I would like to note that I will require visa sponsorship for positions based in New Zealand. However, I am highly mobile and flexible regarding the location of employment, and I am willing to relocate at my own expense. I am eager to bring my skills and experience to a new challenge and start a new chapter in my career.

Thank you for your consideration, and I look forward to the opportunity to discuss my qualifications further!

Best regards,

Steffen Tourbier
